

Machine Applique
Barb Eikmeier
June 14, 2010

Fabric:

Avoid fabrics with several colors and large design motifs. The best choices are printed fabrics that have a subtle design or small scale print. Tone on tone that reads solid from a distance is good.

Please do all cutting prior to class.

One 12 ½" square of background fabric

Four 5" x 6" rectangles for leaves and stems

One 7" square for the large flower

One 4 ½" square for the small flower

One 2 ½" square for the flower center

- Thread to match each fabric. A good match in thread color is one of the secrets of success with this technique.
- Sewing machine with an adjustable zig-zag stitch
- Open Toed Embroider foot (if you already have one)
- An extra needle for your machine (just in case!)
- Straight pins
- Pencil
- Small sharp scissors. If you have appliqué scissors, bring them too.
